1. The January 1970 Career Training Class ended the Orientation phase of the Intelligence and World Affairs Course with what appears to be a totally shared opinion that it was interesting and stimulating. 2. The Psychological Services Staff/OMS has agreed to provide written assessment of 21 members of the January CT Class by the early part of February. We seek these reports to assist us in developing special training/job plans for each of the trainees.

3. Although Colonel White set 15 January as the deadline for the Deputy Directors to submit their written comments about the proposed Career Training Program, only Mr. Bannerman's has been received. The Directorate for Intelligence plans not to submit a paper although has expressed strongly its position that CT promotion policy be geared to wider Agency promotion practices and not give Career Trainees preferential treatment.
